RESEARCH INTERESTS

My goal is to understand the performance behavior of highly-configurable software systems. I am especially interested in practical approaches that enable developers and users to reason about qualities (performance, energy usage, etc). The compelling challenge that drives my research is enabling users to make tradeoff by learning practical models to explore the high-dimensional configuration spaces of configurable systems (e.g., Robotics, Deep Neural Networks, Big Data, Cloud). My research lies at the intersection of software engineering, systems, and machine learning.

RESEARCH POSITIONS

- 8/2018–* **Assistant Professor**, *University of South Carolina*, Columbia, SC, US.
Assistant professor of Computer Science and Engineering
- 12/2016–8/2018 **Postdoctoral Associate**, *Carnegie Mellon University*, Pittsburgh, US.
Working with Prof. Christian Kästner on performance analysis of highly-configurable software, collaborating very closely with Prof. Norbert Siegmund. Working with Prof. David Garlan on meta-learning for self-adaptive systems. Involved in BRASS, a DARPA sponsored project developing model-based adaptation of mobile robotics software.
- 2/2015–12/2016 **Postdoctoral Associate**, *Imperial College London*, London, UK.
Involved in two EU projects (DICE and MODAClouds), where I developed practical tools and techniques for auto-tuning big data systems (Apache Hadoop and Storm).
- 9/2014–2/2015 **Postdoctoral Researcher**, *Dublin City University*, Dublin, Ireland.
Worked with Prof. Claus Pahl on developing self-learning controllers in IC4 cloud center and in collaboration with Intel (Giovani Estrada) and Microsoft (Niall Moran).
- 9/2010–9/2014 **Research Assistant**, *Dublin City University*, Dublin, Ireland.
Worked with Prof. Claus Pahl on developing a cloud controller for auto-scaling in cloud. I received a scholarship from Lero (the Irish Software Research Centre).
- 7/2008–9/2010 **Research Group Coordinator**, *Shahid Beheshti University*, Tehran, Iran.
Coordinated the Automated Software Engineering Research (ASER) group (10 researchers); my main research was to develop tools for designing service-oriented systems.

QUALIFICATIONS

- 9/2010–9/2014 **Ph.D., Computing**, *Dublin City University*, Ireland.
 - Thesis: *A framework for robust control of uncertainty in self-adaptive software*
 - Adviser: Prof. Claus Pahl, External examiner: Prof. Pete Sawyer (Lancaster)
- 9/2003–2/2006 **M.Sc., Systems Engineering**, *Amirkabir University of Technology*, Iran.
 - Thesis: *An integrated knowledge-based system for product design support*
 - Adviser: Dr. Saeed Mansour
- 9/1999–9/2003 **B.A., Computer Science**, *Amirkabir University of Technology*, Iran.

INDUSTRIAL EXPERIENCE

- 2007–2010 **Project Manager**, *System Group*, Tehran, Iran.
Managed a large-scale software project on developing an integrated software system automating business processes in a charity organization at a national scale. My team size was 20-30 people including business analysts, designers and software developers. Technologies: .NET, Microsoft SQL Server, SOA compatible stacks.
- 2006–2007 **Enterprise Architect**, *System Group*, Tehran, Iran.
Developed the enterprise architecture and prepared the ICT business planning using IBM's Business Systems Planning (BSP) and the Zachman Framework. Designed the software architecture of the core systems using an extended ADL in Visual Paradim.
- 2003–2006 **Software Engineer**, *Rayan Pardaz Kavosh*, Tehran, Iran.
Developed server-side software, designed finance and automation software systems. Added a number of new features to a code base of a manufacturing automation system. Technologies: Visual C++, COM/CORBA, Socket programming

HONORS AND AWARDS

- Travel Grant Awarded a travel grant to participate the 2018 NSF CSR Aspiring PI Workshop, May 11th, 2018. **\$1,000**
- VCC Finalist Shortlisted for the VCC venture capital challenge for automated configuration tuning for big data systems, <https://github.com/dice-project/DICE-Configuration-B04C0>, UK, 2016.
- Travel Grant Awarded a travel grant to visit Sharif University of Technology to give a talk on auto-scaling in cloud and big data, 2016.
- STSM Grant Awarded Short-Term Scientific Missions (STSM) grant (**\$5,000**) by the Management Committee of the COST Action IC1305, 2014.
- Internal Competition Selected as one of the two finalists at DCU for a fully funded research visit to **IBM Research** Brazil for research on automatic synthesis of connectors, 10 weeks, 2014.
- Internal Competition Thesis in 3 finalist, "I bet you didn't know that software can adapt itself on-the-fly", Ireland, 2013.
- Travel Grant ACM-SIGSOFT CAPS award and University of Szeged special support grant (**\$4,000**), ESEC/FSE 2011, Szeged, Hungary, 2011.
- Fellowship Awarded Lero Graduate School in Software Engineering (LGSSE) scholarship on the structured PhD in Software Engineering, 2010-2013, **\$85,000**.
- Iranian University Entrance Exam Ranked **21nd** in the national graduate-level exam among 20,000 participants, 2003.

INVITED TALKS, LECTURES AND SEMINARS

- SLIDESHARE** The slides of my recent talks are available at: <http://www.slideshare.net/pooyanjamshidi/>
- RE-WORK DEVOPS SUMMIT** **Machine Learning meets DevOps: Transfer Learning for Performance Optimization**, *Houston, Texas*, November 2018.
- SATURN** **Architectural Tradeoffs in Learning-Based Software**, *Plano, Texas*, May 2018.
- NC STATE UNIVERSITY** **Learning Software Performance Models for Dynamic and Uncertain Environments**, *Raleigh, US*, 2017.
- SPEC DEVOPS RG** **An Exploratory Analysis of Transfer Learning for Performance Modeling of Configurable Systems**, *Online talk, RG DevOps Performance Working Group*, 2017.
- DAGSTUHL SEMINAR** **Machine Learning meets DevOps**, *Software Performance Engineering in the DevOps World, Dagstuhl, Germany*, 2016.
- BERN UNIVERSITY** **An Uncertainty-Aware Approach to Optimal Configuration of Stream Processing Systems**, *Bern, Switzerland*, 2016.
- SPEC DEVOPS RG** **An Uncertainty-Aware Approach to Optimal Configuration of Stream Processing Systems**, *Online talk, RG DevOps Performance Working Group*, 2016.
- SPEC DEVOPS RG** **Microservices Architecture Enables DevOps: Migration to a Cloud-Native Architecture**, *Online talk, RG DevOps Performance Working Group*, 2016.
- NC4 CONFERENCE** **DevOps: Migration to a Cloud-Native Architecture**, *The National Conference on Cloud Computing & Commerce, Dublin, Ireland*, 2016.
- SHARIF UNIVERSITY** **Fuzzy Self-Learning Controllers for Elasticity Management in Dynamic Cloud Architectures**, *Tehran, Iran*, 2016.
- NII SHONAN MEETING** **Fuzzy Self-Learning Controllers for Elasticity Management in Dynamic Cloud Architectures**, *National Institute of Informatics (NII), Controlled Adaptation of Self-adaptive Systems (CASaS), Shonan, Japan*, 2016.
- TRINITY COLLEGE** **Self-learning Cloud Controllers**, *Trinity College Dublin*, 2015.
- UFC UNIVERSITY** **Self-learning Cloud Controllers**, *Federal University of Ceara, Fortaleza, Brazil*, 2015.
- UECE UNIVERSITY** **Cloud Migration Patterns: A Multi-Cloud Architectural Perspective**, *Ceara State University, Fortaleza, Brazil*, 2015.
- NC4 CONFERENCE** **Fuzzy Q-Learning for Knowledge Evolution**, *The National Conference on Cloud Computing & Commerce, Dublin, Ireland*, 2015.
- SPEC DEVOPS RG** **Self-learning Cloud Controllers**, *Online talk, RG DevOps Performance Working Group*, 2015.
- DAGSTUHL SEMINAR** **Fuzzy Control Meets Software Engineering**, *Control Theory meets Software Engineering, Dagstuhl, Germany*, 2014.

TEACHING ACTIVITIES

HEA CERTIFICATE I am an **Associate Fellow of Higher Education Academy (AFHEA)**. AFHEA is a recognition certified by the Higher Education Academy for professional teaching according to the UK Professional Standards Framework.

GRADUATE TEACHING

- Fall 2018 **CSCE 790: Machine Learning Systems**, *University of South Carolina, Columbia, SC*, Lecturer, <https://pooyanjamshidi.github.io/mls/>.
- 4/2018 **S17-655 Architectures for Software Systems (CMU Software Engineering Masters Program)**, *Carnegie Mellon University, Pittsburgh, US*, A guest lecture on Machine Learning for the Software Architect.
- 11/2016 **SMA: Software Modeling and Analysis (Oscar Nierstrasz's course)**, *Bern University, Switzerland*, A guest lecture on Architecture Extraction.
- 10/2015–1/2016 **424H - Learning in Autonomous Systems**, *Imperial College London, TA*.
- 11/2014–12/2014 **CA674 - Cloud Architecture**, *Dublin City University*, Lectures shared with Claus Pahl.
- 3/2014–6/2014 **CA668 E-commerce Infrastructure**, *Dublin City University*, Lectures shared with Claus Pahl.

UNDERGRADUATE TEACHING

- Spring 2019 **CSCE 580: Artificial Intelligence**, *University of South Carolina, Columbia, SC*, Lecturer, <https://pooyanjamshidi.github.io/csce580/>.
- 10/2017 **Foundations of Software Engineering (Chrsitan Kästner and Claire Le Goues's course)**, *Carnegie Mellon University*, A guest lecture on *Microservices Architecture*.
- 9/2008-6/2010 **Software Engineering**, *Tarbiat Moallem University*, Lecturer.
- 9/2001-6/2003 **Introduction to C/C++**, *Amirkabir University of Technology*, TA.
- 9/2002-6/2003 **Data Structures**, *Amirkabir University of Technology*, TA.

DOCTORAL STUDENTS (CURRENT)

- 2018- **Yuxiang Sun**.
- 2018- **Yang Ren**.
- 2018- **Rui Xin**.
- 2018- **Shahriar Iqbal**.
- 2019- **Jianhai Su**.

UNDERGRADUATE STUDENTS (CURRENT)

- 2018- **Nathan Stofik**.
- 2018- **Tristan Klintworth**.
- 2018- **Ishrat Singh**.

RESEARCH CO-MENTORING (COMPLETED)

- 2017-2018 **Federal University of Minas Gerais (UFMG)**, *M.Sc. thesis*, Markos Vigiato de Almeida.
On the Investigation of Software Development and Evolution Practices

- 2018 **Carnegie Mellon University**, *Undergraduate research project*, Students: Alex Gao, Connor Lin, Jason Bak, Sander Lanbo Shi, Yunjie Su.
Design space explorations of deep neural network architectures for embedded devices.
- 2017 **Carnegie Mellon University**, *REU Program*, Changming Xu.
Can you fool a self-adaptive software system?
- 2016–17 **Imperial College London**, *Bachelor of engineering project*, Ka Yan Wong.
Experimental study of performance variations in big data systems.
- 2016 **Imperial College London**, *Master of engineering project*, Yifan Zhai.
A DevOps canary testbed for Big Data application testing.
- 2015 **Imperial College London**, *B.Eng. final project*, Zhang Haoran, Qiu Jiaxin, Abdeljallal Fahd, Lu Cong, Chadjiminas Ioannis, Liu Yao.
A suite for automated configuration testing and benchmarking for Apache Spark.
- 2016 **Imperial College London**, *M.Eng. final project*, Xidi Chen.
A suite for automated configuration testing and benchmarking for Apache Hadoop.
- 2014–2015 **Dublin City University**, *MS.c. practicum*, Robert Mason.
Auto-scaling in OpenStack cloud.
- 2014 **Dublin City University**, *MS.c. practicum*, Brian C. Carroll.
Auto-scaling in the cloud: evaluating a control based technique.
- 2014–15 **Sharif University of Technology**, *MS.c. thesis*, Armin Balalaie.
Migrating to cloud-native architectures using microservices.
- 2008–10 **Shahid Beheshti University**, *MS.c. thesis*, Ali Rostampour, Ali Kazemi.
A metric for measuring the degree of entity-centric service cohesion.

OTHER RESEARCH SUPERVISION

- 2018 **University of South Carolina**, *PhD (Electrical Engineering)*, Hayder Dawood Abboud, Ph.D. committee member.
- 2018 **University of South Carolina**, *PhD (Computer Science and Engineering)*, Jason Moulton, Ph.D. committee member.

- GitHub Almost all listed software is developed collaboratively. LD: lead developer; CC: contributor.
- LD [S15] **brass_gazebo_battery**, *brass_gazebo_battery is a Gazebo plugin that simulates an open-circuit battery model. This is a fairly extensible and reusable battery plugin for any kind of Gazebo compatible robots.*, C++, [↗ https://github.com/pooyanjamshidi/brass_gazebo_battery](https://github.com/pooyanjamshidi/brass_gazebo_battery).
- LD [S14] **GenPerf**, *GenPerf uses symbolic regression to synthetically generate target performance influence models with different similarities to the source model. GenPerf is used to generate synthetic data for evaluating our TL approach.*, Python, [↗ https://github.com/pooyanjamshidi/GenPerf](https://github.com/pooyanjamshidi/GenPerf).
- LD [S13] **AutoTL (NOT RELEASED)**, *This tool enables an adaptive sampling that learns from multiple exclusive information origins including influential configuration options, their interactions, and performance distribution of the configurable software*, Python, [↗ https://github.com/pooyanjamshidi/autotl](https://github.com/pooyanjamshidi/autotl).
- LD [S12] **model-learner**, *This tool enables discovering a black box model using regression models and transfer learning. This was used in the BRASS project to enable battery charge/recharge in a self-adaptive loop*, Python, [↗ https://github.com/cmu-mars/model-learner](https://github.com/cmu-mars/model-learner).
- LD [S11] **autoscaling-bigdata**, *A library for application level runtime monitoring and runtime change actuators and auto-scaling controllers for Big Data technologies such as Apache Storm, Spark, Hadoop, Matlab+REST APIs*, [↗ https://github.com/pooyanjamshidi/autoscaling-bigdata](https://github.com/pooyanjamshidi/autoscaling-bigdata).
- LD [S10] **TL4CO**, *A Machine Learning tool for finding the optimum configuration of Big Data systems by transferring the learning from other system versions in DevOps context*, Matlab+Java, [↗ https://github.com/dice-project/DICE-Configuration-TL4CO](https://github.com/dice-project/DICE-Configuration-TL4CO).
- LD [S9] **Featured Software** **BO4CO**, *A Machine Learning tool for finding the optimum configuration of Big Data systems*, Matlab+Python, [↗ https://github.com/dice-project/DICE-Configuration-BO4CO](https://github.com/dice-project/DICE-Configuration-BO4CO).
- LD [S8] **ElasticBench**, *A cloud application framework to plug-in auto-scaling logic and experimentally evaluate controllers in a feedback control loop on platform as a service environment on Microsoft Azure*, .NET, [↗ https://github.com/pooyanjamshidi/ElasticBench](https://github.com/pooyanjamshidi/ElasticBench).
- CC [S7] **spark-suite**, *A suite for automated configuration testing, automated topology deployment and a benchmarking tool for Apache Spark*, Java, [↗ https://github.com/pooyanjamshidi/spark-suite](https://github.com/pooyanjamshidi/spark-suite).
- CC [S6] **OSTIA**, *A parser to elicit and represent Storm topologies by reverse engineering Storm-based programs*, Ruby, [↗ https://github.com/maelstromdat/OSTIA](https://github.com/maelstromdat/OSTIA).
- LD [S5] **pong-engine**, *An engine that runs pong games on Matlab and paddles are controlled by reinforcement learner agents. I implemented this piece of software for a reinforcement learning course*, Matlab, [↗ https://github.com/pooyanjamshidi/pong-engine](https://github.com/pooyanjamshidi/pong-engine).
- CC [S4] **MDLoad**, *MDload is a model-driven workload generation tool that automatically generates requests to a web application by simulating a set of users*, Java+Matlab, [↗ https://github.com/imperial-modaclds?query=modaclds-mdload](https://github.com/imperial-modaclds?query=modaclds-mdload).

- LD [S3] **Fuzzy-Q-Learning**, *An implementation of Fuzzy Q-Learning for making cloud auto-scaling more intelligent through online policy learning*, Matlab,  <https://github.com/pooyanjamshidi/Fuzzy-Q-Learning>.
- LD [S2] **RobusT2Scale**, *A cloud auto-scaler based on fuzzy reasoning*, Matlab,  <https://github.com/pooyanjamshidi/RobusT2Scale>.
- LD [S1] **ASIM**, *A program that automatically identifies services out of business processes*, Java,  <https://github.com/pooyanjamshidi/ASIM>.

DATA

My research is experimental, I typically release the data that I collect for my research to the public community for replication.

- [D2] **ASE 2017**, *Transfer Learning for Performance Modeling of Configurable Systems: An Exploratory Analysis*, **Subject systems:** SaC, SQLite, SPEAR, X264,  <https://github.com/pooyanjamshidi/ase17>.
- [D1] **MASCOTS 2016**, *An Uncertainty-Aware Approach to Optimal Configuration of Stream Processing Systems*, **Subject systems:** Apache Storm, Apache Spark, Apache Hadoop, Apache Cassandra,  <https://zenodo.org/record/56238>.

SERVICES

GUEST EDITOR

IEEE Software **IEEE Software Special Issue on Microservices, Guest editor, Co-edited with James Lewis (ThoughtWorks), Stefan Tilkov (innoQ), Claus Pahl, and Nabor Mendonça, This special issue attracted 26 submissions, a record number in IEEE Software,**  <https://www.computer.org/software-magazine/2017/02/10/microservices-call-for-papers/>.

CO-ORGANIZER

- SEMCOP 2019 1st International Workshop on Software Engineering for Modern Computing Platforms (co-located with ESEC/FSE 2019), co-organizer.
- SEAMS 2017 The 12th International Symposium on Software Engineering for Adaptive and Self-Managing Systems, publicity and proceedings chair (Co-organized with David Garlan, Bashar Nuseibeh, Javier Camára, and Nicolás D'Ippolito).
- CloudWays 2017 International Workshop on Cloud Adoption and Migration, Workshop co-chair (Co-organized with Claus Pahl, and Nabor Mendonça).
- Dagstuhl 2016 **Software Performance Engineering in the DevOps World, Seminar co-organizer (Co-organized with Andre van Hoorn, Philipp Leitner, and Ingo Weber.),**  <http://www.dagstuhl.de/16394>.
- CloudWays 2016 International Workshop on Cloud Adoption and Migration, Workshop co-chair.
- CloudWays 2015 International Workshop on Cloud Adoption and Migration, Workshop co-chair.

PROGRAM COMMITTEES (CONFERENCES)

- ICSE 2020 International Conference on Software Engineering
- ICPE 2020 International Conference on Performance Engineering
- ECSA 2019 13th European Conf. on Software Architecture
- SATURN 2019 SEI Architecture User Network (SATURN) Conference
- ICSA 2019 International Conference on Software Architecture (Tool Track)
- Microservices 2019 International Conference on Microservices
- SEAMS 2019 14th Intl Symp on Software Eng for Adaptive and Self-Managing Systems
- ICSOC 2018 16th Intl Conference on Service-Oriented Computing
- ECSA 2018 12th European Conf. on Software Architecture
- ICDCS 2018 38th International Conf. on Distributed Computing Systems, Distributed Green Computing and Energy Management track
- SEAMS 2018 13th Intl Symp on Software Eng for Adaptive and Self-Managing Systems
- ECSA 2017 11th European Conf. on Software Architecture
- SEAMS 2017 12th Intl Symp on Software Eng for Adaptive and Self-Managing Systems
- EUSPN 2017 8th International Conf. on Emerging Ubiquitous Systems and Pervasive Networks
- SIGMOD 2016 ACM SIGMOD 2016 Reproducibility
- SEAMS 2016 11th Intl Symp on Software Eng for Adaptive and Self-Managing Systems
- EUSPN 2016 7th International Conf. on Emerging Ubiquitous Systems and Pervasive Networks
- ICSOFT 2016 13th International Conf. on Software Technologies
- ICSOFT 2015 12th International Conf. on Software Technologies

PROGRAM COMMITTEES (WORKSHOPS)

AKSAS 2018 International Workshop on Architectural Knowledge for Self-Adaptive Systems
MLMH 2018 KDD Workshop on Machine Learning for Medicine and Healthcare
AMS 2018 International Workshop on Architecting with MicroServices
SQUADE 2018 International Workshop on Software Qualities and their Dependencies
LTB 2018 Load Testing and Benchmarking of Software Systems
ASBDA 2017 International Workshop on Autonomic Systems for Big Data Analytics
AMS 2017 International Workshop on Architecting with MicroServices
QUDOS 2017 International Workshop on Quality-Aware DevOps
LTB 2017 Load Testing and Benchmarking of Software Systems
QUORS 2017 International COMPSAC Workshop on Quality Oriented Reuse of Software
LTB 2016 Load Testing and Benchmarking of Software Systems
QUORS 2016 International COMPSAC Workshop on Quality Oriented Reuse of Software

JOURNAL REVIEWS

Brackets indicate the number of papers I reviewed (excluding revisions).

IEEE TSE (8) IEEE Transactions on Software Engineering
IEEE Software (7) IEEE Software
ACM TAAS (3) ACM Transactions on Autonomous and Adaptive Systems
ACM TOSEM (1) ACM Transactions on Software Engineering and Methodology
IEEE TCC (2) IEEE Transactions on Cloud Computing
IEEE TSC (2) IEEE Transactions on Service Computing
Springer SoSyM (2) Springer Software & Systems Modeling
Elsevier IST (2) Elsevier Information and Software Technology
Oxf Comp Jrnl (2) Oxford Academic Computer Journal
Wiley SPI (3) Wiley Software Process: Improvement and Practice
Wiley JSEP (2) Wiley Journal of Software: Evolution and Process
IEEE Cloud (2) IEEE Cloud Computing

SUB-REVIEWER

ICSE 2018 International Conference on Software Engineering
ASE 2017 International Conference on Automated Software Engineering
FSE 2017 ACM SIGSOFT Symposium on the Foundations of Software Engineering
ICCAC 2016 International Conference on Cloud and Autonomic Computing
CLOUD 2016 International Conference on Cloud Computing
CLOUD 2015 International Conference on Cloud Computing
ICAC 2015 International Conference on Autonomic Computing
ICDCS 2015 International Conference on Distributed Computing Systems
ICPE 2015 International Conference on Performance Engineering
PESOS 2015 International Workshop on Principles of Engineering Service-Oriented and Cloud
SBRC 2015 The Brazilian Symposium on Computer Networks and Distributed Systems
ESOCC 2014 European Conference on Service-Oriented and Cloud Computing

GRANT PROPOSAL REVIEW

- 2018 Canadian Science Fund (FRQnet)
- 2018 Austrian Science Fund (FWF)
- 2016 Dutch Technology Foundation (STW)

OTHER REVIEWS

- 2016 Elsevier book proposal review

INDUSTRY SERVICES

- SPEC During my postdoctoral research at Imperial, I was actively collaborating with the DevOps RG group for developing a DevOps framework by consolidating tools to better integrate performance monitoring and architectural refactoring.
- Intel and Microsoft During my postdoctoral research in IC4 (Irish cloud center with 40+ industry members), I was actively collaborating with Giovanni Estrada and Chris Woods from Intel and Niall Moran from Microsoft for developing auto-scaling mechanisms for OpenStack and Azure platforms, see [C15, C14, C18].
- IPMA Project Management Excellence My responsibility was to *assess* the quality of the projects submitted for the “National Project Management Excellence Award” and to judge its excellence by exploiting the IPMA Project Excellence Model. The assessment process included individual assessments, consensus meetings, site visits and report writing.
- Apache I am active in the Apache Storm community contributing to the auto-scaling feature of the framework:  <https://issues.apache.org/jira/browse/STORM-594>
- Imperial Consultants I was a research consultant on Big Data and Machine Learning in Imperial Consultants, a self-funding, wholly owned company of Imperial College London.

OUTREACH ACTIVITIES

- Outreach High school student mentor for CREST Awards 2015, Project title: “Can a program beat the Turing test?”, Queens Park School, UK.
- Outreach Young Scientists Exhibition 2013, Lero stands, Dublin, Ireland, 2013.

RESEARCH VISITS

- OCT 2014 **Vienna University of Technology**, *Host: Ivona Brandic, Soodeh Farokhi*, Austria, 1-month.
- AUG 2014 **Edinburgh Napier University**, *Host: Xiaodong Liu*, UK, 1-month visit.
- JAN 2015 **University of Fortaleza**, *Host: Nabor Mendonca*, Brazil, 1-month visit.

MEMBERSHIP IN TECHNICAL COMMUNITIES

- 2015– SPEC RG DevOps Performance Group.
- 2011– IEEE, ACM, ACM SIGSOFT
- 2011– Irish Software Association (ISA)

GRANTS

CMU-DARPA- **Project Title:** **Online Transfer Learning and Self-Adaptation of**
DOD **Robots**, *Amount: \$114,741*, Project Period: 09/01/2018 - 08/31/2019.
